

SHD Group announce new factory in Slovenia

SHD Composite Materials Europe d.o.o. relocate to new 1500m² manufacturing premises

Press release

31st January 2023

SHD is delighted to announce that as part of their Group's ongoing growth plans, and absolute commitment to the highest levels of quality and service in the prepreg industry, SHD Composite Materials Europe d.o.o. has relocated to new manufacturing premises.

The new factory is a short distance from the original site in Krsko, Slovenia, however the 1500m² factory provides a major increase in capacity and facilities which creates a substantial foundation for SHD to further expand in support of its dynamic customer base across Europe.

This expansion will immediately double production capacity, enabling the company to maintain its short lead-times and providing significant scope for longer term growth. The SHD team moved into the facility in September, successfully commissioning all new equipment and have received quality certification following the Group annual AS9100 audit.

Steve Doughty, Managing Director, said: "We are very proud of our new Slovenian plant and the highly skilled team that are based there. Our customers know very well of our 100% focus on excellence in service and quality. This new facility means we now have a solid foundation to support our customers for the foreseeable future. Please feel free to come and visit the plant to see what we do."

We look forward to welcoming you into our new facility!

About SHD Composites Group

SHD Composites Group operates through 3 manufacturing sites in the UK, Europe and USA, and are well-established industry suppliers of high quality structural and tooling prepreg materials. EN 9100 : 2018 and BS EN ISO 9001:2015 certified, SHD pride themselves on their quality, service and responsiveness to local customer needs.
